

Halsey Taylor products feature WaterSentry® VII or Plus filtration systems utilizing NSF/ANSI 53 certified filters to reduce lead. View the certification listings for our products online at WQA.org.

FILTERED BOTTLE FILLING STATIONS

Our bottle filling stations are designed to provide a rapid fill of refreshing drinking water to quench thirst and minimize plastic bottle waste in the environment. Find filtered bottle fillers at www.halseytaylor.com/fillers.

FILTERED COOLERS AND FOUNTAINS

Our water coolers and fountains offer waterway systems utilizing lead-free material. Find filtered coolers and fountains at www.halseytaylor.com/coolers.

VANDAL-RESISTANT RETROFIT KITS

Our vandal-resistant water filter kits are great for use on existing non-filtered water coolers, fountains and bottle fillers and include:

- Vandal-resistant Box.
- WaterSentry® VII Filter.
- Filter Monitor and Alert.
- Versatile Mounting Options.

FILTRATION SOLUTIONS

WaterSentry kits and filters are great for use on existing units. They can be installed on:

- Bottle Fillers.
- Coolers and Fountains.
- Classroom Sinks.
- Classroom Bubblers.
- Glass Fillers.
- Faucets (under the counter; cold water only).

Find filtration solutions including the vandal-resistant retrofit kits and WaterSentry filters and filter kits at www.halseytaylor.com/accessories-filters.
